

MIRKA

Pneumatic and Electric Mobile Dust-Free Sanding Solutions

Timo Korpinen, Toyota Kaivoksela

Mobile Systems

How much time in your shop is lost each day?

The old adage "time is money" has never been more important. Now, the definition has been narrowly focused as "cycle time", which is the amount of time required to complete a process. The reduction of cycle times is critical to improving the bottom line in professional autobody repair. By utilizing a mobile workstation that can keep all of the required materials within ten feet of the repair, a technician can eliminate the wasted trips in the repair bay that increase the duration of the repair process.

The Mirka Smart Cart is the perfect solution to keep all your abrasives, tools, and dust extractor at one place as an integrated, dust-free sanding system.

- Movable platform for the DE-1230-PC dust extractor
- Integrated storage hooks for vacuum hoses
- Locking cabinet for inventory control
- 17-3/4" x 27" work surface, recessed 2"
- Two (2) 15-3/4" x 12" x 2-3/4" drawers
- Dedicated tool rests are located on a wire rack
- Manifold with auxiliary air fitting (pneumatic)
- Integrated storage for polish bottles or aerosol cans
- Premium casters incorporating a foot pedal wheel brake
- Swivel locks to prevent movement of the cart

The Mirka Trolley was specifically designed for small or tight spaces and is the perfect solution for keeping all your abrasives, tools, and dust extractor in one place as an integrated, dust-free sanding system.

- Larger back wheels keep the trolley stable
- Bottom shelf for the DE-1230-PC dust extractor
- Upper shelf for abrasives, polishes and other components
- Several hooks for tools keep you organized
- Manifold with auxiliary air fitting (pneumatic)
- Larger height adjustable hook
- Dedicated vacuum hose hook
- Velcro strip for hand blocks
- Swivel locks on wheels

Dust-Free Sanding Perfection

We are all looking for ways to become more profitable and efficient in our collision repair operations. The on-going dynamics in the collision industry today have forced us to evaluate every facet of operations.

Mirka's Optimized Surface Preparation (OSP) System provides a unique, four-step process with standardized abrasives to ensure a uniform repair process, while Autonet® offers the traditional grits utilized in the collision repair industry,

Experience NET abrasives

Fast, efficient, and standard repair process

- Less time required for the repair area
- Improved consistency and less re-work
- More repairs, more profit

Elimination of Dust in Sanding Operations

- Improved shop environment
- Less technician exposure to dust
- Reduced labor cost of clean-up and maintenance

Why Optimized Surface Preparation (OSP)?

- Easy for all operators to use and understand
- Combines three industry SOPs in one process
- Simple to standardize across all facilities
- Reduction in SKUs
- Combine OSP abrasives with Mirka's sanding tools, dust extractor and solution cart for a complete dust-free sanding system

Why Autonet®?

- Available in standard grits from P80 through P800
- Individual grit sequences can be chosen for customized SOPs
- Autonet provides unequalled dust extraction compared to conventional abrasives
- Combine NET abrasives with Mirka's sanding tools, dust extractor and solution cart for a complete dust-free sanding system

Mobile Repair Systems

Mirka's mobile repair systems are the perfect solution to keep all your abrasives, tools, and dust extraction at one place as an integrated, dust-free sanding system.

Pneumatic and Electric systems are available

But there's more required than just bringing materials closer to the work. It's equally or more important to be organized. Both the Smart Cart and Trolley provide a movable platform for the DE-1230 dust extractor with integrated storage hooks for vacuum hoses. Dedicated tool rests are designed to securely hold random orbital sanders and vacuum sanding blocks while stable, integrated storage for polish bottles or aerosol cans is provided within the full-width handle assembly. Premium casters incorporating a foot pedal wheel brake and swivel lock can be used to prevent any movement of the systems when located in a stable position.

Mirka's Body Repair Systems:

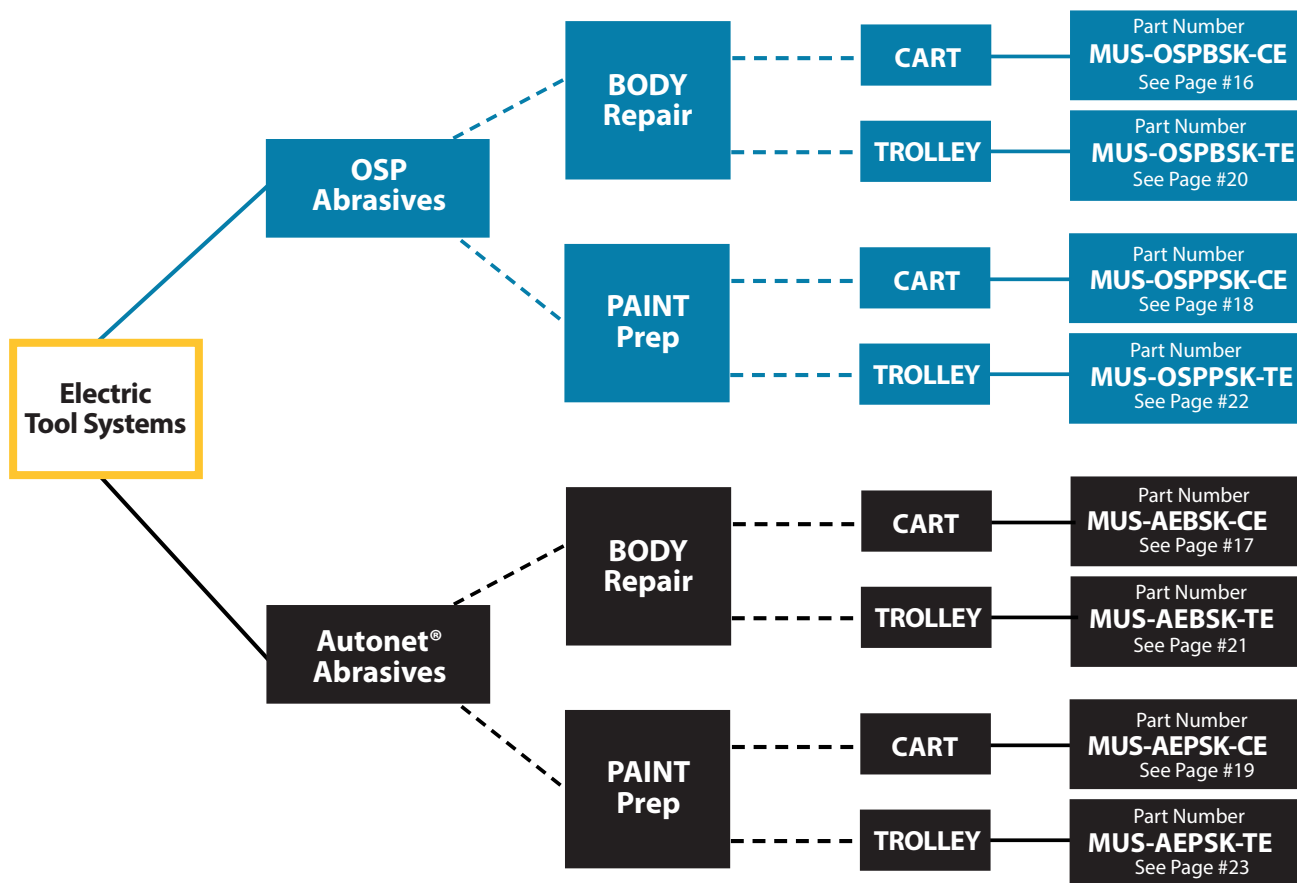

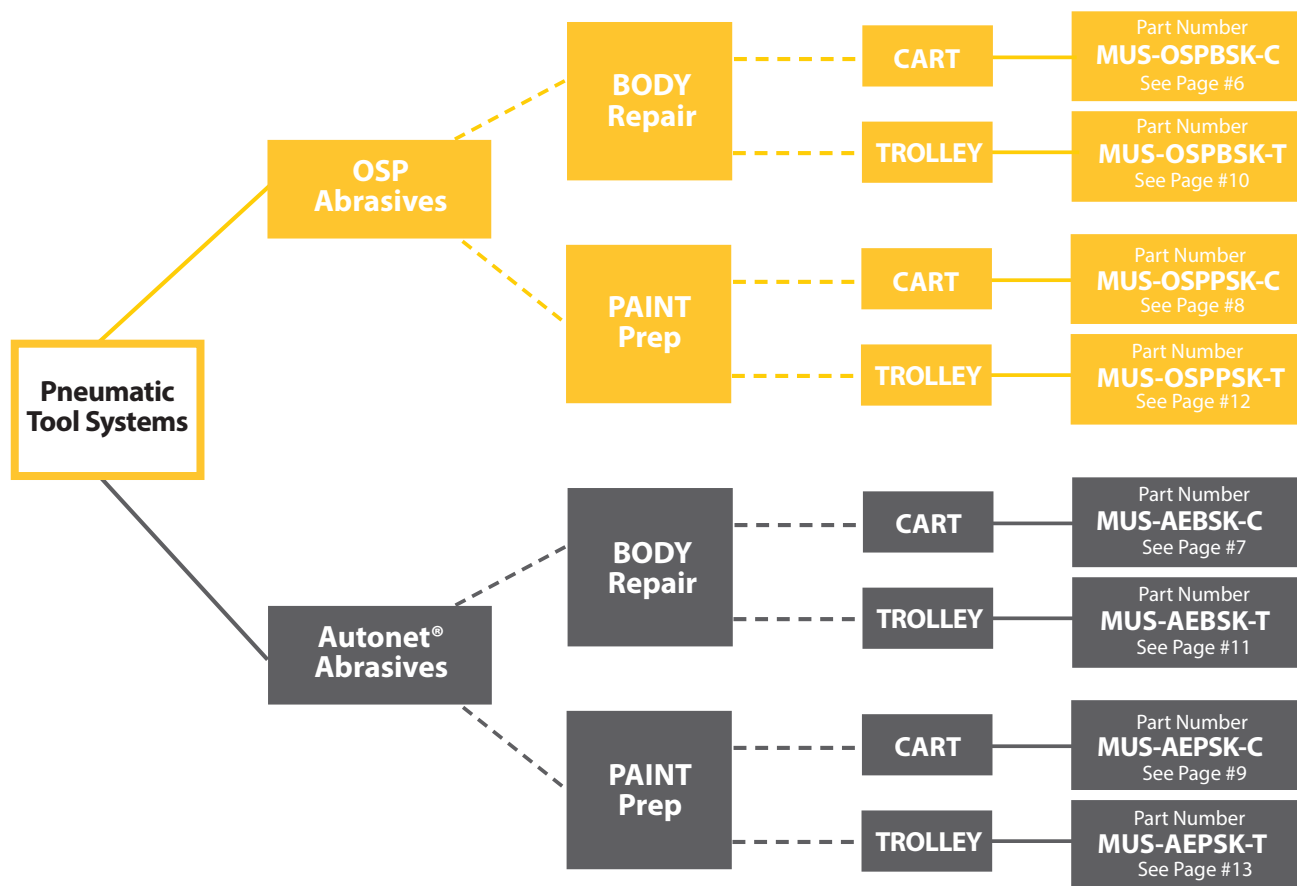

Provide an unequalled mobile solution for efficient and profitable body repair with pneumatic sanders. Available with either Autonet® or OSP (Optimized Surface Preparation) net abrasives, these systems offer dust-free sanding and superior performance. Abrasives are provided in grits **to complete all repairs in preparation for applying primer.**

Mirka's Paint Prep Systems:

Expand on our mobile body repair solution by incorporating the abrasives and tools needed **for primer application and topcoat prep and blend** with Mirka pneumatic or electric sanders. Shops can choose either Autonet® or OSP (Optimized Surface Preparation) net abrasives to achieve dust-free sanding and superior performance.

Mirka Adapters

Mirka® DEROS / DEOS		Ø to Sander (mm)	
Part #	Hose diameters and length	Inner	Outer
MVHA-5	Hose 1-1/2" x 18' • with Integrated Cable	25	27 / 32
MVHA-10	Hose 1-1/2" x 33' • with Integrated Cable	25	27 / 32
MIN6519411	Hose 1-1/2" x 12' + Connector	25	27 / 32
MIN6519711	Extension Hose 1-1/2" x 33'	25	27 / 32

Mirka® PROS / ROS / MR Series		Ø to Sander (mm)	
Part #	Hose diameters and length	Inner	Outer
MV-412HA	Hose 1-1/2" x 15' • with Integrated air hose	25	27 / 32
MV-HA33	Hose 1-1/2" x 33' • with Integrated air hose	25	27 / 32
MIN6519411	Hose 1-1/2" x 12' + Connector	25	27 / 32
MIN6519711	Extension Hose 1-1/2" x 33'	25	27 / 32

Hand Sanding Blocks		Ø to Sander (mm)	
Part #	Hose diameters and length	Inner	Outer
91100-A	Hose 3/4" x 12' + Connector	20	22 / 26
MIN6519411	Tapered Hose 1-1/2" to 1-1/4" x 12' + Connector	22	27 / 32
MIN6519711	Extension Hose 1-1/2" x 33'	25	27 / 32

→ All hoses and adapters work with the Mirka DE-1230-PC dust extractor. Adapters 1–6 can be ordered as spare parts.

Adapter	Description
 MV-412HA-ADAP	1 Hose 1-1/2" x 15' + Connector. This conductive adapter enables a quick change in-between Mirka power tools. Fix the adapter on each tool and connect/disconnect to/from any Mirka hose assembly with a Mirka branded adapter, both pneumatic: MV-412HA, MV-HA33, and electric: MVHA-5 and MVHA-10.
 VHA-1.25	2 a Mirka Connector for Air + Electric Hoses. Comes with hoses MVHA-5, MVHA-10, MV-412HA, MV-HA33.
 8992515911	2 b Connector for Air + Electric Hoses with threads. This adapter is close to the dust extractor, where the pneumatic hose/electrical cable comes out. Comes with hoses MVHA-5, MVHA-10, MV-412HA, MV-HA33.
 8992515611	3 Hose adapter Ø 32 mm / 54 mm for Mirka® Dust Extractors. Comes with hoses MVHA-5, MVHA-10, MV-412HA, MV-HA33. This adapter goes from the hose into the dust extractor.
 8992515411	4 Soft Connector Ø 25,4 mm. Delivered together with hose MIN6519411. For connecting the hose to the Mirka Deco Sander.
 MV-HC32	5 Hose Connector Ø 32 / 32 mm. Delivered together with extension hose MIN6519711. Enables connection with MIN6519411.
 8391111211	6 Quick -disconnect air inlet for Hand Blocks. Comes with hose 91100-A
