

# WORK SMARTER. FINISH FASTER.

## NORTON A275OP DELIVERS BETTER PERFORMANCE RESULTS

Norton A275OP is proven sandpaper technology that consistently outperforms conventional abrasives. It cuts faster, runs cooler, and has better loading resistance allowing it to last longer and maximize productivity.

FEATHER-EDGING | SANDING PRIMER  
STRIPPING OLD PAINTS | DRY SANDING PLASTIC AND PUTTY

QUALITY THAT PAYS™

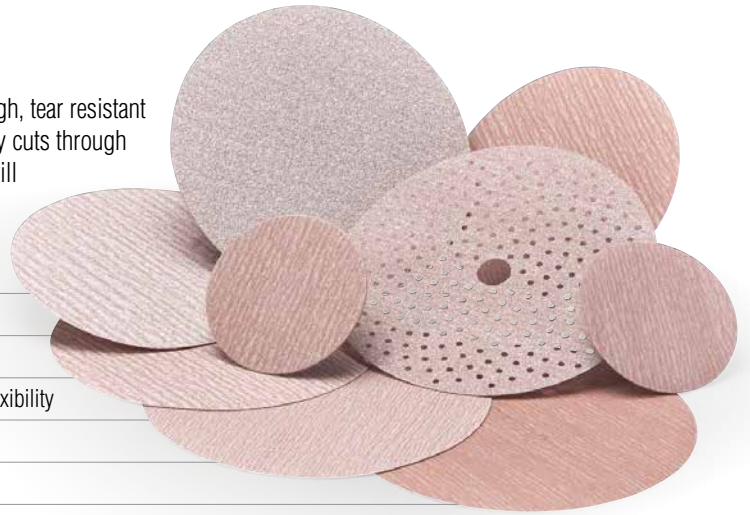

## Improve Results From Start to Finish

Norton A275OP offers a combination of sharp, aluminum oxide abrasive and a tough, tear resistant backing resulting with a high-performance, long lasting sandpaper that consistently cuts through paint and body filler for a high-quality finish- every time. Using a sandpaper that will get the job done faster is a guaranteed increase in productivity.

### FEATURES & BENEFITS

- Premium heat-treated grain delivers a longer life and a faster cut rate
- FEPA P-Graded grain achieves a more consistent, uniform scratch pattern
- Premium B-Weight latex reinforced paper backing improves performance with greater flexibility
- Waterbased stearate No-Fil improves load resistance and extends cut life
- No pigment in No-Fil or bond eliminates the risk of color transfer

# A275OP™ MULTI-AIR CYCLONIC

## Now Breathe Easier With Multi-Air Cyclonic

Norton A275OP, known for its ability to cut faster without loading, is now available with the Multi-Air Cyclonic technology. A275OP Multi-Air Cyclonic optimizes a spiral-hole vacuum configuration that can be used with any back-up pad without aligning the hole pattern. This results in a faster change over with better dust exaction for a cleaner more productive work environment.

### Create a Cleaner Work Space With Virtually Dust-Free Sanding

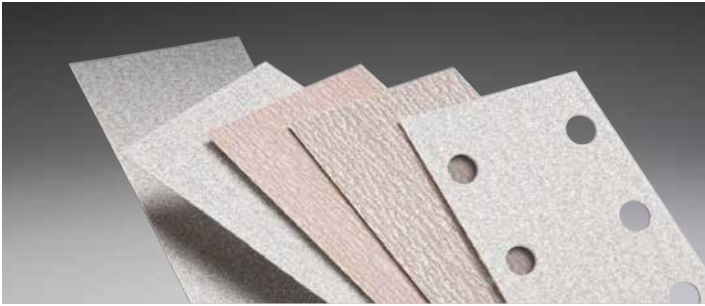

- Deliver more productivity with fewer product changes
- Reduce labor costs per job with less sanding time
- Generate more profit to the bottom line with longer product life, better surface quality, and higher sanding performance
