MAXCUT™

ABRASIVE PAPER

Imagine the cutting power like a coarser grit but the finish of a finer grit!

The result of the most advanced coating technology that utilizes stone grouping and uniform grid layout with Laser Precision. This allows Maxcut to increase its cutting power and paper life while maintaining an extremely uniform finish.

- Extremely Fast Cutting
- High Resistance to Clogging
- Uniform Finish
- Extra Long Paper Life
- Consistent High Performance

SUPER ASSILEX

Fast and Uniform coverage with extremely shallow scratches, resulting from the combination of Ultra Flexible bonding and Super Sharp abrasives. Ideal for light sanding on all types of surfaces that demand shallow scratches, uniform finish and still can be done in the shortest time.

- Perfect for Blending, Light Scuffing and Primer Finishing
- Extremely shallow scratch pattern, safe from “over-sanding”
- Fast and uniform coverage, leaves no unsanded areas
- Time saving of 50% or more, thus greatly improving productivity

YELLOW-FILM SUPER-TACK DISCS

Long lasting high performance Yellow-Film discs cut extremely fast and uniform. Designed for use in topcoat sanding to remove excess orange peel, over-runs, and dust nibs. Can also be used for light scuff sanding before painting. The Super-Tack system provides cooler sanding and the convenience of easy on and off from disc pad.

- Removes Orange Peel, Nibs and Runs
- Light Scuffing Before Painting
- Fast Cutting, Longer Disc Life
- Flexible Film Backing
- Uniform Finishes

TOLEX SYSTEM

Utilizing the most uniform abrasive minerals available and state of the art coating technology, Tolex system achieves finishes more even and shallow than any other dry sanding system in similar finish. Tolex's highly effective dry lubrication process allows minimum clogging, thus increasing sanding life and productivity.

TOLEX STICKON DISCS & SHEETS

Block Sanding

Topcoat sanding will be faster and more efficient as dust nibs are easily identified and located in the first pass of light sanding with Tolex. These imperfections are then quickly and effectively removed by continued sanding on needed areas only. Therefore, oversanding as well as overlooked dust nibs can be easily avoided.

TOLECUT TOUCH-UP SYSTEM

The most advanced and smart system for taking care of dust nibs on topcoat finishing, Tolecut Touch-Up System utilizes state of the art Dry Lube technology and flexible bonding to prevent loading and deep scratches. Nibs and runs can be eliminated effectively and efficiently by Tolecut manually with either Tolecard or Toleblock.

- Eliminates Dust Nibs & Paint Runs
- Fast & Efficient Cutting Power
- Extremely Shallow Scratches
- Ideal for Waterborne and High Solid Paint Systems
- Dry Application Allows Easy Monitoring of Working Area

TOUCH-UP DISC FINISHING SYSTEM

For high volume or OEM operations, Tolecut Touch-Up Disc system can greatly improve productivity by achieving a better finish in less time.

Whether it's paint runs or dust nibs, you can easily eliminate them with the **Kovax 910-3501 Touch-Up Sander**. Its double action imitates hand sanding stability, and it is easy to use. A full range of mini touch-up discs are available in Tolecut Stickon backing for use with the Touch-Up Sander or Dual-Side Touch-Up Pad. You can smooth it out with the equally lightweight **Kovax 910-0301 Mini Air Polisher** and **Polex Polishing Compound**. Or for the ultimate finish, Buflex it with the Touch-Up Pad or Touch-Up Sander.

HIGH-TECH PRODUCT PERFORMANCE GUIDE

As finishing technology continues to advance, quality demands in coated abrasives are higher than ever before, especially in the fine sanding area. Besides the longevity and cutting speed in sanding products, a uniform finish with shallow scratches is essential for today's New Generation painting technology.

In order to keep up with the changes, a series of new products ranging from scuffing to fine polishing sanding has been introduced in the last few years by *Kovax*, the leader in fine finishing coated abrasives. These products utilize the latest technology in both the material and the bonding process and have successfully achieved quality standards that will meet or exceed today's professional requirements.

Since the relationship between cutting speed and the final finish of these new products are dramatically different from traditional sandpaper, the following table will serve as a starting point for understanding or making a selection from these products.

(Note: Cutting speed and Final finish vary depending on the method of sanding and the condition of the sanding surface.)

	Super Assilex						Tolex	Tolecut System					Buflex System	
	Brown	Ocean	Sky	Lemon	Orange	Peach	Pink	Yellow	Orange	Pink	Green	Black	Green	Black
	K-240	K-360	K-600	K-800	K-1200	K-1500	K-1500	K-800	K-1200	K-1500	K-2000	K-3000	K-2000	K-3000
Sanding Speed Equivalence	±P150	±P240	±P320	±P600	±P1000	±P1200	±P1200	±P500	±P800	±P1000	±P1200	±P1500	±P1200	±P1500
	Time required to completely cover and sand within a given area is equivalent to the speed of above grit number in traditional abrasive paper. (Because "depth of sanding scratches" differ from product to product, the above guide is not necessarily equivalent to speed of material removal in volume).													
Finish Equivalence	Manual	>P240	>P360	>P600	>P800	>P1200	>P1500	>P800	>P1200	>P1500	>P2000	>P3000	>P2000	>P3000
	Machine	>P280	>P400	>P800	>P1000	>P1500	>P2000	>P1000	>P1500	>P2000	>P2500	>P3500	>P2500	>P4000
The effort required to polish the finish of referenced products is equivalent to a finish left behind by the above grit numbers.														

RECOMMENDED INTERFACE PADS

The following table will give some general suggestions for which interface pad to use with what product and for what purposes. When used between Super-Tack back-up pads and abrasive discs, these soft foam interface pads will increase flexibility and provide extra cushioning, thus minimizing deep scratches and improving finish. Interface Cushion Pads are available in different sizes of 3", 5", 6", and also 6" vacuum assist pads. Recommended for use with grits P600 and finer.

Product	Part Number Prefix	Usage	Type	Size	Suggested Interface Pad

FINKAT SUPER-TACK

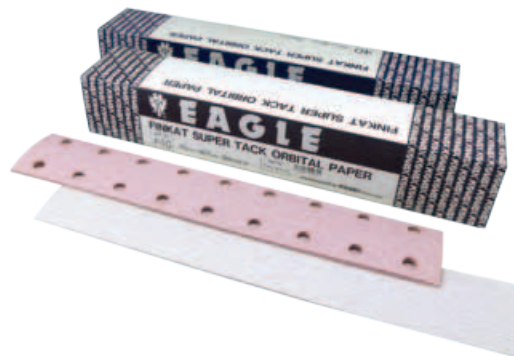

The convenience of velour backing, much cooler sanding and superb finishes are some of the reasons that, since its introduction, Eagle SUPER-TACK abrasive paper has been well accepted by more and more professionals who demand the best for their jobs.

FINKAT PS - For those tough, demanding sanding jobs, use Finkat PS Paper. It utilizes a premium abrasive mineral and a special bonding method for faster, tougher performance while still maintaining an excellent uniform finish.

FINKAT STICKON

Eagle Finkat Stickon Paper is the most convenient available for the dry sanding process. Its Pressure Sensitive Adhesive backing provides quick application and removal from the sanding pad. Finkat's full resin-over-resin bonded discs have an extremely sharp cutting power without leaving deep scratches. The individual square lining leaves both abrasive and adhesive sides in good condition before use.

DRY SANDING ABRASIVE PAPER

ALUMINUM OXIDE DRY (AO)

Get a consistent and uniform finish with these long lasting dry sanding sheets. Full resin bonded premium aluminum oxide abrasive grains cut fast and highly resist clogging. Extra soft and flexible backing for better hand sanding needs.

SILICON CARBIDE DRY (CC)

Highly resistant to clogging, these long lasting dry sanding sheets are designed for both machine and hand sanding on all types of surfaces. Resin bonded silicon carbide abrasive grains cut fast and produce a consistent, uniform finish.

WATERPROOF ABRASIVE PAPER

SILICON CARBIDE WET (CC)

The world's most reputable wet sanding paper for its durability, speed, and extremely uniform abrasive grains. Sharp silicon carbide abrasive grain is resin-over-resin bonded on a highly flexible anti-slip backing that requires no pre-soaking before sanding.

ALUMINUM OXIDE WET (AO)

Premium aluminum oxide abrasives and full resin bonded; this heavy-duty waterproof paper is engineered for both machine and hand sanding in achieving a consistent and uniform finish. Extreme durability and fast cutting speed make this paper an ideal choice for the most demanding job.

POLISHING

POLEX POLISHING COMPOUND

POLEX, a unique combination of high tech abrasives and polishing additives, removes paint imperfections and sand scratches without swirl or buffer marks. By simply switching pads, Porex will remove color sanding scratches as well as finish to a highly lustrous shine.

POLEX COMPOUND	 8oz Porex Polishing Compound	 32oz Porex Polishing Compound	 1 gal. Porex Polishing Compound
Part No.	04035	04038	04039
Pack/Case	1/24	1/6	1/4

EAGLE MICRO FINISHING DETAILING CLOTH

Perfect for cleaning and polishing of paint, chrome, glass and other surfaces. These lint-free, scratch-free premium microfiber cloths are highly absorbent, retaining moisture at more than six times their dry weight. Wedge shaped split microfiber strands are designed for superior trapping and removal of all dirt particles while protecting the work surface from scratching. Multi-Dimensional construction for extra durability. Recommended for machine wash with hot water. Comes in blue color and pink color (with thicker and fluffier texture).

DETAILING	 Micro Finishing Cloths	 Anti-Static Detailing Foam Pads
Color		
Blue	04161	04100
Pink (Extra Soft)	04162	--
Pack/Case	1/24	1/36

EAGLE ANTI-STATIC FOAM PADS

Use this extra-soft foam pad instead of terry towels to remove polish residue. Does not scratch clear coat, will dissipate lint and dust-attracting static build-up. Machine washable.

REPLACEMENT PADS FOR MINI AIR POLISHER

Specially designed to use with the Kovax Mini Air Polisher (p/n 910-0301). The wool pads can be used for light compound buffing and the yellow foam pads can be used for final polishing.

POLISHER PADS	 3" Yellow Foam Pads	 3" Wool Pads
Part No.	P4045	P4047
Pack/Case	1/24	1/24

EAGLE MULTI-CELL CURVED FOAM PADS

High quality *Curved Multi-Cell* foam pads have a slow absorption rate and regularly placed pockets that gradually release polish as the operator applies pressure, requiring less polish to complete the task. The interruptions on the face of the Curved Multi-Cell pads also decrease surface tension and contact, thus reducing both skipping and heat-causing friction. Machine washable, tear resistant foam for long life.

Use (Color)	8 1/2" Multi-Cell Curved Foam Pads
Medium Cutting (Orange)	04846
Light Cutting (White)	04847
Polishing (Blue)	04848
Finishing (Red)	04849
Pack/Case	1/24
Recommended Back-Up Plates	
Part No.	04623

EAGLE MULTI-HEX FOAM PADS

Our vibration free, low fatigue *Multi-Hex* foam pads are also self-centering for convenience. The multiple hex pattern on the face of the pad will disperse buffing compound evenly based on the amount of pressure used by the operator, thus reducing grabbing and heat-causing friction. Each Multi-Hex pad will have a different level of cutting or finishing based on the foam structure. The flexible backing plate will also lessen pad stiffness and can adapt to most buffers with 04621 or 02206R back-up plate.

Use (Color)	7 1/2" Multi-Hex Foam Pads
Medium Cutting (Orange)	04636
Light Cutting (White)	04637
Polishing (Blue)	04638
Finishing (Red)	04639
Pack/Case	1/24
Recommended Back-Up Plates	
Part No.	04621 02206R

EAGLE MULTI-BUFF FOAM PADS

Eagle *Multi-Buff* foam pad combines multiple strands of tiny high density foam to achieve the best finish in the shortest time. This lint-free pad buffs like a real wool pad without the drawback of heat and polish build-up. Made with machine washable, tear resistant foam for long life.

Use (Color)	8" Multi-Buff Foam Pads
Polishing (Yellow)	04855
Finishing (Blue)	04856
Pack/Case	1/24

EAGLE COMPOUND WOOL PADS

Designed for use with Micro-Finishing Compounds for fine scratch removal. Blended tufted pile for deep cleaning and grime removal. Rounded edge minimizes burn-through while producing excellent finishes. Allows quick-change convenience and accurate centering.

STICKON DISC PADS

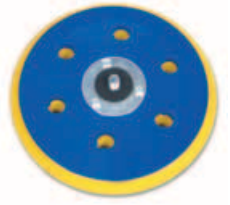

Expressly designed for use with Stickon discs, these pads have a vinyl face for quick disc adhesion and removal. Durable molded polymer construction is firm enough for flat surfaces, yet soft enough for curved areas. Both 5" and 6" pads have a 5/16-24 threaded shank and max speed is 10,000 RPM. 8" pads have 5/8-11 female hub and max speed is 3,200 RPM.

Size	5" Dia.	6" Dia.	8" Dia.
Part No.	03105	03106	02108
Pack/Case	1/10	1/10	1/5

STICKON 6" STREAMLINED DISC PADS

Constructed of durable, lightweight molded polymer. 6" pads have 5/16-24 threaded shank and standard 6 hole pattern. Max speed is 10,000 RPM.

6" Dia.	01166
Pack/Case	1/10

STICKON 8" STREAMLINED DISC PADS

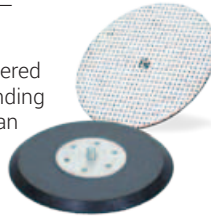

Replacement pads specially designed for use with 8" Stickon discs. These well-balanced pads are made with a durable lightweight molded polymer in a low profile design. Vinyl pad face makes mounting and changing the discs fast and easy. Max speed is 1,500 RPM.

Size	5 Screws	6 Screws
