# Safety Data Sheet

According to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012 and the Hazardous Products

Regulations (HPR) WHMIS 2015

Date of issue: 06/19/2017 Revision date: 07/31/2019 Version: 1.1

# **SECTION 1: Identification**

Identification

Product form : Mixture

Product name : 2K DTS Sealer Medium Gray

Product code : 3684262 / REZ934

Relevant identified uses of the substance or mixture and uses advised against

: Automotive refinish Recommended use

### Details of the supplier of the safety data sheet

Manufacturer Peter Kwasny GmbH Heilbronner Str. 96

T 49(0) 6269-95-20

Gundelsheim, 74831 - Germany

Islandia, NY 11749 T 1-844-726-6330 (toll free North America)

62-64 Enter Lane

Peter Kwasny Spraypaint Canada Inc 2275 Lake Shore Boulevard West, Suite 530

Toronto, ON M8V 3Y3

**Emergency telephone number** 

Emergency number : 352-323-3500 (24h / 7 days a week)

### **SECTION 2: Hazard identification**

# Classification of the substance or mixture

#### **GHS** classification

Flam. Aerosol 1 Press. Gas (Liq.) Skin Irrit. 2 Resp. Sens. 1 Skin Sens. 1 Carc. 2 Repr. 2 Asp. Tox. 1 Simple Asphy

### Label elements

#### **GHS** labelling

Hazard pictograms (GHS)

GHS08

Signal word (GHS)

Hazard statements (GHS)

: Danger

Extremely flammable aerosol. Contains gas under pressure; may explode if heated. Causes skin irritation. May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause an allergic skin reaction. Suspected of causing cancer. Suspected of damaging fertility or the unborn child. May be fatal if swallowed and enters airways. May displace oxygen and cause

rapid suffocation.

Precautionary statements (GHS)

: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Avoid breathing dust/fume/gas/mist/vapours/spray. Wash hands, forearms and face thoroughly after handling. Contaminated work clothing must not be allowed out of the workplace. Wear protective gloves/protective clothing/eye protection/face protection. In case of inadequate ventilation, wear respiratory protection. If swallowed: Immediately call a poison center/doctor, Do NOT induce vomiting. If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/ attention. Take off contaminated clothing and wash it before reuse. If inhaled: If breathing is difficult,

# Safety Data Sheet

According to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012 and the Hazardous Products Regulations (HPR) WHMIS 2015

remove person to fresh air and keep comfortable for breathing. If experiencing respiratory symptoms: Call a poison center/doctor. If exposed or concerned: Get medical advice/attention. Store in a well-ventilated place. Store locked up. Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F. Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation.

#### 2.3. Other hazards

No additional information available

#### 2.4. Unknown acute toxicity

Not applicable

# **SECTION 3: Composition/information on ingredients**

#### 3.1. Substances

Not applicable

#### 3.2. Mixtures

Name	Product identifier	%
Dimethyl ether	(CAS-No.) 115-10-6	15 – 40
n-Butyl acetate	(CAS-No.) 123-86-4	5 – 10
Acetone	(CAS-No.) 67-64-1	5 – 10
Xylenes (o-, m-, p- isomers)	(CAS-No.) 1330-20-7	5 – 10
Titanium dioxide	(CAS-No.) 13463-67-7	3 – 7
Hexamethylene diisocyanate homopolymer	(CAS-No.) 28182-81-2	1 – 5
Bisphenol A-epichlorohydrin polymer	(CAS-No.) 25068-38-6	1 – 5
Methyl isoamyl ketone	(CAS-No.) 110-12-3	1 – 5
Ethylbenzene	(CAS-No.) 100-41-4	1 – 5
Zinc oxide (ZnO)	(CAS-No.) 1314-13-2	0.5 – 1.5

<sup>\*</sup>Chemical name, CAS number and/or exact concentration have been withheld as a trade secret

# **SECTION 4: First aid measures**

### 4.1. Description of first aid measures

First-aid measures after inhalation : If ir

: If inhaled, remove to fresh air and keep at rest in a position comfortable for breathing. If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician.

First-aid measures after skin contact

: IF ON SKIN: Wash with plenty of Water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.

First-aid measures after eye contact

: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

First-aid measures after ingestion

: IF SWALLOWED: immediately call a POISON CENTER or doctor/physician. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person.

# 4.2. Most important symptoms and effects, both acute and delayed

Symptoms/effects after inhalation

: May cause irritation to the respiratory tract. May cause allergy or asthma symptoms or breathing difficulties if inhaled. Vapours are heavier than air and can cause suffocation by reducing oxygen available for breathing. Symptoms of oxygen deficiency include respiratory difficulty, headache, dizziness, nausea, unconsciousness or death.

Symptoms/effects after skin contact

: Causes skin irritation. Symptoms may include redness, drying, defatting and cracking of the skin. May cause an allergic skin reaction.

Symptoms/effects after eye contact

: May cause eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling.

Symptoms/effects after ingestion

: May be fatal if swallowed and enters airways. May result in aspiration into the lungs, causing chemical pneumonia. May cause gastrointestinal irritation, nausea, vomiting and diarrhea.

# 4.3. Indication of any immediate medical attention and special treatment needed

Symptoms may be delayed. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

# **SECTION 5: Firefighting measures**

#### 5.1. Extinguishing media

Suitable extinguishing media : Water spray. Dry powder. Carbon dioxide (CO<sub>2</sub>).

Unsuitable extinguishing media : Do not use water jet.

07/31/2019 EN (English) 2/2

# Safety Data Sheet

According to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012 and the Hazardous Products Regulations (HPR) WHMIS 2015

## 5.2. Special hazards arising from the substance or mixture

Fire hazard : Extremely flammable aerosol. Products of combustion may include, and are not limited to:

oxides of carbon.

Explosion hazard : Heat may build pressure, rupturing closed containers, spreading fire and increasing risk of

burns and injuries. Vapours may form explosive mixture with air.

Reactivity : No dangerous reactions known under normal conditions of use.

#### 5.3. Advice for firefighters

Firefighting instructions : DO NOT fight fire when fire reaches explosives. Evacuate area.

Protection during firefighting : Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA). Use water spray to keep fire-exposed containers cool. Vapours are heavier than air and

may travel considerable distance to an ignition source and flash back to source of vapours.

# **SECTION 6: Accidental release measures**

#### 6.1. Personal precautions, protective equipment and emergency procedures

General measures : Use personal protection recomme

: Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel. Eliminate every possible source of ignition. Use only

non-sparking tools. Use special care to avoid static electric charges.

# 6.1.1. For non-emergency personnel

No additional information available

#### 6.1.2. For emergency responders

No additional information available

### 6.2. Environmental precautions

Prevent entry to sewers and public waters.

#### 6.3. Methods and material for containment and cleaning up

For containment : Stop leak if safe to do so. Contain and/or absorb spill with inert material (e.g. sand, vermiculite),

then place in a suitable container. Do not flush to sewer or allow to enter waterways. Use

appropriate Personal Protective Equipment (PPE).

Methods for cleaning up : Scoop up material and place in a disposal container. Provide ventilation.

## 6.4. Reference to other sections

For further information refer to section 8: "Exposure controls/personal protection"

# SECTION 7: Handling and storage

## 7.1. Precautions for safe handling

Additional hazards when processed : Pressurized container: Do not pierce or burn, even after use. Hazardous waste due to potential

risk of explosion.

Precautions for safe handling : Do not breathe dust/fume/gas/mist/vapours/spray. Avoid contact with skin, eyes and clothing.

Do not swallow. Handle and open container with care. When using do not eat, drink or smoke. Keep away from sources of ignition - No smoking. Do not spray on an open flame or other ignition source. Use only non-sparking tools. Take precautionary measures against static

discharge. Use only outdoors or in a well-ventilated area.

Hygiene measures : Wash contaminated clothing before reuse. Always wash hands after handling the product.

# 7.2. Conditions for safe storage, including any incompatibilities

Technical measures : Proper grounding procedures to avoid static electricity should be followed.

Storage conditions : Keep out of the reach of children. Store locked up. Store in a well-ventilated place. Store away

from direct sunlight or other heat sources. Keep in fireproof place. Do not expose to temperatures exceeding 50 °C/ 122 °F. Keep away from incompatible materials.

### 8.2. Exposure controls

Appropriate engineering controls : Ensure good ventilation of the work station.

Hand protection : Wear suitable gloves resistant to chemical penetration.

Eye protection : Safety glasses or goggles are recommended when using product.

Skin and body protection : Wear suitable protective clothing.

Respiratory protection : In case of insufficient ventilation, wear suitable respiratory equipment. Respirator selection

must be based on known or anticipated exposure levels, the hazards of the product and the

safe working limits of the selected respirator.

Environmental exposure controls : Avoid release to the environment.

Other information : Handle in accordance with good industrial hygiene and safety procedures. Do not eat, drink or

smoke when using this product.

# **SECTION 9: Physical and chemical properties**

# 9.1. Information on basic physical and chemical properties

Physical state : Liquid Appearance : Aerosol : Gray. Colour Characteristic Odour Odour threshold : No data available No data available pΗ Melting point : No data available Freezing point : No data available : No data available Boiling point Flash point : < -18 °C (-0.4 °F) Relative evaporation rate (butylacetate=1) : No data available

Flammability (solid, gas) : Extremely flammable aerosol.

Vapour pressure : No data available Relative vapour density at 20 °C No data available Relative density : No data available Density : 0.96 g/cm3 Solubility : No data available Partition coefficient n-octanol/water : No data available No data available Auto-ignition temperature Decomposition temperature : No data available Viscosity, kinematic : No data available Viscosity, dynamic : No data available **Explosive limits** : No data available Explosive properties No data available : No data available Oxidising properties

## 9.2. Other information

No additional information available

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

No dangerous reactions known under normal conditions of use.

#### 10.2. Chemical stability

Stable under normal conditions. Extremely flammable aerosol. Contents under pressure. Container may explode if heated. Do not puncture. Do not burn. Extreme risk of explosion by shock, friction, fire or other sources of ignition.

# 10.3. Possibility of hazardous reactions

No dangerous reactions known under normal conditions of use.

### 10.4. Conditions to avoid

Heat. Sparks. Open flame. Direct sunlight. Overheating. Incompatible materials.

# 10.5. Incompatible materials

Oxidizing materials. Acids. Alkalis.

### 10.6. Hazardous decomposition products

May include, and are not limited to: oxides of carbon.

# **SECTION 11: Toxicological information**

# 11.1. Information on toxicological effects

Acute toxicity (oral) : Not classified.

Acute toxicity (dermal) : Not classified.

Acute toxicity (inhalation) : Not classified.
