MAXCUT

Speed like a coarser grit but the finish of a finer grit! Maxcut, the next generation production abrasive paper for today's modern technicians.

PG
02

P60 - P180

PRODUCTION SANDING

TRI-PRO

A great choice for your everyday sanding needs, full resin bonded TRI-PRO Super-Tack discs cut fast and leave a uniform finish.

PG
03

P80 - P600

MID-RANGE SANDING

PF Premium

Eagle High Performance PF Premium Series utilizes a special flexible bonding technology to effectively minimize deep scratches and increase cutting power.

PG
04

P80 - P600

MID-RANGE SANDING

MaxFilm

Utilizing top premium abrasive minerals together with the most advanced coating technology, MaxFilm discs cut extremely fast with uniform finish.

PG
06

P120 - P600

MID-RANGE SANDING

Magic Disc

Extremely long lasting diamond abrasive disc specially developed for sanding on very hard OEM E-Coat and matte clearcoat.

PG
07

320

HARD SURFACE SANDING

SuperAssilex

The abrasives that revolutionize how sanding is done will also greatly improve your shop productivity in a way you never thought possible before!

PG
08

K240 - K1500

BLENDING & SCUFFING

Yellow-Film

Over-runs, dust nibs and excessive orange peel can now be removed effortlessly with Eagle Super-Tack Yellow-Film discs.

PG
11

P800 - P2000

TOP COAT SANDING

Tolecut

The most advanced and smart system for taking care of Nibs and Runs on topcoat finishing.

PG
12

K800 - K3000

TOUCH-UP SANDING

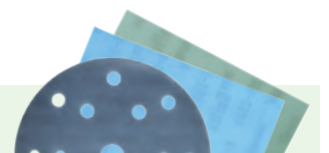

Buflex Dry

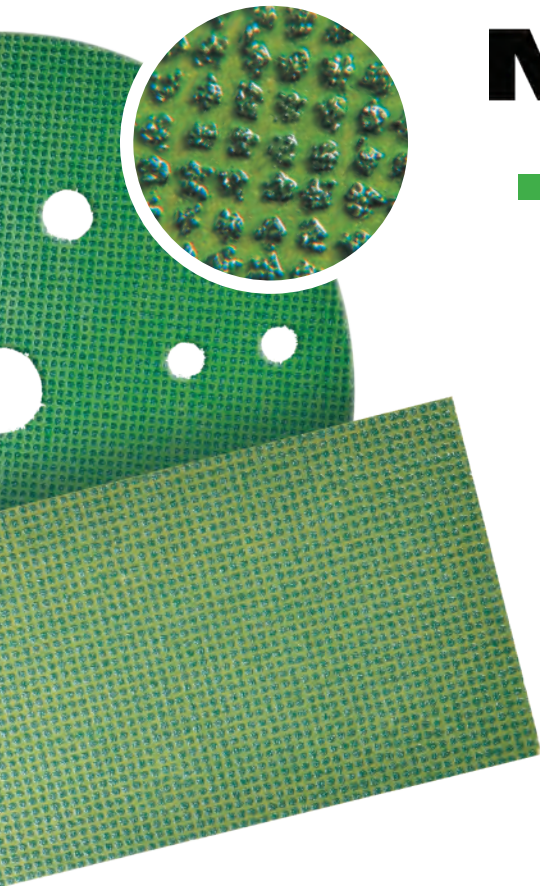

Beautiful finishes can now be achieved effortlessly in much less time! A unique system that promises to cut all those long buffing times by 50% or more!

PG
14

K2000 - K3000

BUFFING & POLISHING

■ MAXCUT SHEETS & DISCS

Imagine the cutting power like a coarser grit but the finish of a finer grit!
The result of the most advanced coating technology that utilizes stone grouping and uniform grid layout with Laser Precision. This allows Maxcut to increase its cutting power and paper life while maintaining an extremely uniform finish.

- Extremely Fast Cutting
- High Resistance to Clogging
- Consistent High Performance
- Extra Long Paper Life
- Uniform Finish

MAGIC DISC

SuperAssilex

■ SUPER ASSILEX SHEETS & DISCS

Provides Fast and Uniform coverage with extremely shallow scratches, resulting from the combination of Ultra Flexible bonding and Super Sharp abrasives. Ideal for light sanding on all types of surfaces that demand shallow scratches, uniform finish and still can be done in the shortest time.

- **Perfect for Blending, Light Scuffing and Primer Finishing**
- **Extremely shallow scratch pattern, safe from “over-sanding”**
- **Fast and uniform coverage, leaves no unsanded areas**
- **Time saving of 50% or more, thus greatly improving productivity**

Tolex

Utilizing the most uniform abrasive minerals available and state of the art coating technology, Tolex system achieves finishes more even and shallow than any other dry sanding system in similar finish. Tolex's highly effective dry lubrication process allows minimum clogging, thus increasing sanding life and productivity.

■ TOLEX SUPER-TACK (FLEXIBLE SANDING)

In addition to the convenience of use, its extreme flexibility allows Super Tolex to sand both the inside valleys and peaks of Orange Peel with minimum removal.

PAGE 25 

■ TOLEX STICKON (BLOCK SANDING)

Topcoat sanding will be faster and more efficient as dust nibs are easily identified and located in the first pass of light sanding with Tolex. These imperfections are then quickly and effectively removed by continued sanding on needed areas only. Therefore, oversanding as well as overlooked dust nibs can be easily avoided.

SUPER-TACK = Hook & Loop

Tolecut

TOUCH-UP SYSTEM

The most advanced and smart system for taking care of dust nibs on topcoat finishing, Tolecut Touch-Up System utilizes state of the art Dry Lube technology and flexible bonding to prevent loading and deep scratches. Nibs and runs can be eliminated effectively and efficiently by Tolecut manually with either Tolecard or Toleblock.

- Eliminates Dust Nibs & Paint Runs
- Fast & Efficient Cutting Power
- Extremely Shallow Scratches
- Ideal for Waterborne and High Solid Paint Systems
- Dry Application Allows Easy Progress Monitoring

TOUCH-UP DISC FINISHING SYSTEM

For high volume or OEM operations, Tolecut Touch-Up Disc system can greatly improve productivity by achieving a better finish in less time.

Whether it's paint runs or dust nibs, you can easily eliminate them with the **Kovax 910-3501 Touch-Up Sander**. A full range of mini touch-up discs are available in Tolecut Stickon backing for use with the Touch-Up Sander or Dual-Side Touch-Up Pad. You can smooth it out with the equally lightweight **Kovax 910-0301 Mini Air Polisher** and **Polex Polishing Compound**. Or for the ultimate finish, Buflex it with the Touch-Up Pad or Touch-Up Sander.

► PRESERVE OEM TEXTURE

Due to its extreme flexibility, Super Buflex can polish both the inside valleys and peaks of Orange Peel without eliminating it. The shallow scratch pattern will also prevent over-sanding in situations where the thickness of top coat is a concern.

SUPER BUFLEX INTERFACE PADS ►

Utilize a special soft "Hook & Loop" system to minimize sanding hotspots and avoid deep scratches. Achieve the most uniform and shallow finish that can be polished in the shortest time.

Buflex WET

■ BUFLEX STICKON (WET)

A unique WET sanding and polishing system that combines an ultra-flexible latex abrasive sheet and a specially formulated soft pad that are designed to remove top coat (color) sanding scratches quickly and effectively.

HIGH-TECH PRODUCT PERFORMANCE GUIDE

As finishing technology continues to advance, quality demands in coated abrasives are higher than ever before, especially in the fine sanding area. Besides the longevity and cutting speed in sanding products, a uniform finish with shallow scratches is essential for today's New Generation painting technology.

In order to keep up with the changes, a series of new products ranging from scuffing to fine polishing sanding has been introduced in the last few years by **Kovax**, the leader in fine finishing coated abrasives. These products utilize the latest technology in both the material and the bonding process and have successfully achieved quality standards that will meet or exceed today's professional requirements.

Since the relationship between cutting speed and the final finish of these new products are dramatically different from traditional sandpaper, the following table will serve as a starting point for understanding or making a selection from these products.

(Note: Cutting speed and Final finish vary depending on the method of sanding and the condition of the sanding surface.)

	Super Assilex							Tolex	Tolecut System						Buflex System			
	Brown	Ocean	Sky	Lemon	Lime	Orange	Peach	Pink	Yellow	Orange	Pink	Green	Blue	Black	Green	Blue	Black	
	K-240	K-360	K-600	K-800	K-1000	K-1200	K-1500	K-1500	K-800	K-1200	K-1500	K-2000	K-2500	K-3000	K-2000	K-2500	K-3000	
Sanding Speed Equivalence	±P150	±P240	±P320	±P600	±P800	±P1000	±P1200	±P1200	±P500	±P800	±P1000	±P1200	±P1500	±P2000	±P1200	±P1500	±P2000	
	Time required to completely cover and sand within a given area is equivalent to the speed of above grit number in traditional abrasive paper. (Because "depth of sanding scratches" differ from product to product, the above guide is not necessarily equivalent to speed of material removal in volume).																	
	Manual	>P240	>P360	>P600	>P800	>P1000	>P1200	>P1500	>P1500	>P800	>P1200	>P1500	>P2000	>P2500	>P3000	>P2000	>P2500	>P3000

	The effort required to polish the finish of referenced products is equivalent to a finish left behind by the above grit numbers.																	

RECOMMENDED INTERFACE PADS

The following table will give some general suggestions for which interface pad to use with what product and for what purposes. When used between Super-Tack back-up pads and abrasive discs, these soft foam interface pads will increase flexibility and provide extra cushioning, thus minimizing deep scratches and improving finish. Interface Cushion Pads are available in different sizes of 3", 5", 6", and also 6" vacuum assist pads. Recommended for use with grits P600 and finer.

DRY SANDING

ABRASIVE PAPER

■ ALUMINUM OXIDE DRY (AO)

Get a consistent and uniform finish with these long lasting dry sanding sheets. Full resin bonded premium aluminum oxide abrasive grains cut fast and highly resist clogging. Extra soft and flexible backing for better hand sanding needs.

■ SILICON CARBIDE DRY (CC)

Highly resistant to clogging, these long lasting dry sanding sheets are designed for both machine and hand sanding on all types of surfaces. Resin bonded silicon carbide abrasive grains cut fast and produce a consistent, uniform finish.

WATERPROOF

ABRASIVE PAPER

■ SILICON CARBIDE WET (CC)

The world's most reputable wet sanding paper for its durability, speed, and extremely uniform abrasive grains. Sharp silicon carbide abrasive grain is resin-over-resin bonded on a highly flexible anti-slip backing that requires no pre-soaking before sanding.

■ ALUMINUM OXIDE WET (AO)

Premium aluminum oxide abrasives and full resin bonded; this heavy-duty waterproof paper is engineered for both machine and hand sanding in achieving a consistent and uniform finish. Extreme durability and fast cutting speed make this paper an ideal choice for the most demanding jobs.

FINKAT **PS** SUPER-TACK

■ SUPER-TACK DISCS & SHEETS

The convenience of velour backing, much cooler sanding and superb finishes are some of the reasons that, since its introduction, Eagle SUPER-TACK abrasive paper has been well accepted by more and more professionals who demand the best for their jobs.

FINKAT PS - For those tough, demanding sanding jobs, use Finkat PS abrasive paper. It utilizes a premium abrasive mineral and a special bonding method for faster, tougher performance while still maintaining an excellent uniform finish.

POLISHING

POLEX POLISHING COMPOUND

POLEX, a unique combination of high tech abrasives and polishing additives, removes paint imperfections and sand scratches without swirl or buffer marks. By simply switching pads, Porex will remove color sanding scratches as well as finish to a highly lustrous shine.

POLEX COMPOUND			
	8oz Porex Polishing Compound	32oz Porex Polishing Compound	1 gal. Porex Polishing Compound
Part No.	04035	04038	04039
Pack/Case	1/24	1/6	1/4

EAGLE ANTI-STATIC FOAM PADS

Use this extra-soft foam pad instead of terry towels to remove polish residue. Does not scratch clear coat, will dissipate lint and dust-attracting static build-up. Machine washable.

EAGLE MICRO FINISHING DETAILING CLOTH

Perfect for cleaning and polishing of paint, chrome, glass and other surfaces. These lint-free, scratch-free premium microfiber cloths are highly absorbent, retaining moisture at more than six times their dry weight. Wedge shaped split microfiber strands are designed for superior trapping and removal of all dirt particles while protecting the work surface from scratching.

Pack/Case	1/24	1/24

Mini Air Polisher
PAGE 25

EAGLE MULTI-CELL CURVED FOAM PADS

High quality *Curved Multi-Cell* foam pads have a slow absorption rate and regularly placed pockets that gradually release polish as the operator applies pressure, requiring less polish to complete the task. The interruptions on the face of the Curved Multi-Cell pads also decrease surface tension and contact, thus reducing both skipping and heat-causing friction. Machine washable, tear resistant foam for long life.

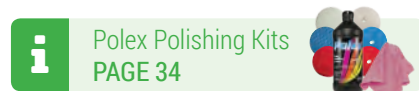

Use (Color)	8½" Multi-Cell Curved Foam Pads
Medium Cutting (Orange)	04846
Light Cutting (White)	04847
Polishing (Blue)	04848
Finishing (Red)	04849
Pack/Case	1/24
Recommended Back-Up Plates	
Part No.	04623

EAGLE MULTI-HEX FOAM PADS

Our vibration free, low fatigue *Multi-Hex* foam pads are also self-centering for convenience. The multiple hex pattern on the face of the pad will disperse buffing compound evenly based on the amount of pressure used by the operator, thus reducing grabbing and heat-causing friction. Each Multi-Hex pad will have a different level of cutting or finishing based on the foam structure. The flexible backing plate will also lessen pad stiffness and can adapt to most buffers with 04621 or 02206R back-up plate.

Use (Color)	7½" Multi-Hex Foam Pads
Medium Cutting (Orange)	04636
Light Cutting (White)	04637
Polishing (Blue)	04638
Finishing (Red)	04639

HAND SANDING BLOCKS

HAND SANDING FOAM BLOCKS (1/3 SHEETS)

Extra soft foam blocks are designed to use with one-third of a file sheet (Long Board) abrasive paper. Made of lightweight, flexible foam that is firm enough to provide an excellent fit and firm grip.

Size	Stickon
2-3/4" x 5"	00112
Pack/Case	1/16

HAND SANDING FOAM BLOCKS (1/2 SHEETS)

Designed for use with half of a file sheet (Long Board) abrasive paper. Made of lightweight, tough, and flexible foam that provides an excellent fit and firm grip.

Size	Stickon	Super-Tack
2-3/4" x 7-3/4"	00108	00208
Pack/Case	1/12	1/12

SUPER ASSILEX FOAM BLOCKS

Foam Block System
PAGE 8

An extra soft, flexible foam block that is lightweight yet firm enough for a sturdy grip and excellent fit. Matching size Super-Tack interface pads provide extra cushioning to prevent over-sanding, resulting in a much better finish. Specially sized for Super Assilex, Tolex and Bulex sheets.

Size	Super-Tack
2-2/3" x 4-1/2"	00212
Pack/Case	1/16

SUPER-TACK HAND FILE BOARD

Designed for use with Super-Tack velour-backed sheets, these boards are a durable shop tool with embossed hook face and solid wood handle.

Size	Super-Tack
2-3/4" x 16"	00207
Pack/Case	1/6

3 IN. FOAM SUPER-TACK PALM SANDERS

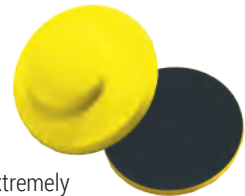

Handy and convenient 3" sanders are specially designed for use with all 3" Super-Tack discs. One-piece molded foam body construction.

Size	No Holes	w/ Center Hole
3" Dia.	00303 00353	00323
Pack/Case	1/10	1/10

6 IN. PALM SANDERS

One-piece molded foam body construction is firm enough for flat surfaces, yet soft enough for curved areas. Uniquely designed handle feels extremely comfortable in your palm for effortless sanding.

Size	Stickon	Super-Tack
6" Dia.	00106	00206
Pack/Case	1/10	1/10

HAND SANDING PADS

These hand pads are designed for Wet or Dry sanding on almost any shape or surface.
