OEM REFINISHING SYSTEM™ (ORS)

FOR SUPPORT PARTS,
CUT-INS & JAMBS

This comprehensive system utilizes aerosol technology to eliminate mixing paint, waiting on a painter, tying up the paint booth, and cleaning spray guns. SEM's ORS enables technicians to finish these jobs directly on the shop floor, reducing cycle time to increase throughput.

Use **Ez Coat™** to match OEM e-coat, **Factory Pack™** to match OEM basecoats, and **1K HS Clear** or **1K HS Semi-Gloss Clear** to finish the job.

DECREASE CYCLE TIME INCREASE THROUGHPUT

REDUCE
LABOR UP TO **85%**

ⓘ Adequate flash is achieved as you finish larger parts. Smaller items will require longer flash times between coats and products.

129 MINUTES

INNER PANEL REFINISHING

STANDARD OPERATING PROCEDURE

Clean with **SEM Solve** or **XXX Universal Surface Cleaner**. Wipe clean in one direction with dry, lint-free cloth. Scuff with P320 grit or gray scuff pad. Blow off and wipe with tack rag if needed.

Choose appropriate **Ez Coat** color. Apply 1 coat until hiding. Flash time achieved while moving across larger parts.
 ⓘ Smaller parts may require 1 – 2 minutes to properly flash.

Choose appropriate **Factory Pack** color. Apply 1 coat until hiding. Flash time achieved while moving across larger parts.
 ⓘ Smaller parts may require 1 – 2 minutes to properly flash.

Choose **1K HS Clear** or **1K HS Semi-Gloss Clear**. Apply 1 coat until covered. Allow 30 – 60 minutes before assembly or installation.

Because of its size, a radiator support will flash as you are finishing the part. For smaller parts, be sure to allow adequate flash time.

ⓘ CHECK LOCAL VOC REGULATIONS TO ENSURE COMPLIANCE OF ALL PRODUCTS IN YOUR AREA. ALWAYS WEAR OSHA REQUIRED PERSONAL PROTECTION EQUIPMENT (PPE) TO ENSURE YOUR SAFETY.

SEEING IS BELIEVING

SEM Solve

SEM Solve is a virgin solvent blend to clean panels prior to refinish or repair.

Part No.	Size
38371	Gallon
38373	20 oz. Aerosol
38374	Quart
38375	5 Gallon

XXX Universal Surface Cleaner

XXX Universal Surface Cleaner is a super compliant, waterborne cleaner that removes solvent and water soluble contaminants prior to refinishing.

Part No.	Size
77771	Gallon
77774	Quart

Factory Pack™

Factory Pack is a unique and time saving basecoat for jambs, cut-ins, small accessories, and touch-ups.

- 40 OEM matched colors
- 224 crossovers covering 18 car manufacturers
- Shop floor compliant (NESHAP)

Part	Size
19013 – 19543	16 oz. Aerosol

Ez Coat™

Ez Coat is the original direct to metal coating that matches the color and gloss of factory primer and e-coat colors.

- OEM recommended
- Duplicates factory appearance
- Direct to steel and aluminum
- Quick curing and hiding
- Available in 9 popular OEM colors
- Paintable with most automotive basecoats
- Excellent corrosion control when used where recommended

Part No.
62213 – 62293

Size
16 oz. Aerosol

	62213 Black
	62223 Olive Green
	62233 Light Green
	62243 Gray
	62253 Tan
	62263 Olive Brown
	62273 White
	NEW 62283 Field Drab
	NEW 62293 Dark Green

1K HS Clears

IMPROVED

New formula! 1K HS Clear is a high solids clearcoat, perfect for refinishing small accessories, door jambs, and new part cut-ins.

- Improved fan pattern is second only to a spray gun
- Increased gloss for a showroom finish
- Lays flat to blend perfectly with spray gun patterns
- Quick drying for increased production
- Shop floor compliant (NESHAP)
- Save time and material
- Maximize shop efficiency

Part No.	Product
40903	1K HS Clear
40913	1K HS Semi-Gloss Clear

Size
20 oz. Aerosol

POWER STATION™

SOLVENT OR WATERBORNE

EASILY MIX AND FILL YOUR PREFERRED BASECOAT, PRIMER OR CLEAR INTO AEROSOLS

No spray guns to clean. No wasted paint. No paint cups. Simply mix, fill, spray.

- Reduce labor up to 85% through time savings and less steps
- Eliminate waste from costly cups, gun cleaning, and hazardous waste
- Extend pot life of mixed products
- Rationalize SKUs needed for filling
- Free up paint team for larger jobs
- Compliant for shop floor application (NESHAP 6H)
- Compact, mobile design provides easy integration

NOW SPRAY YOUR PREFERRED 2K PRIMER, BASECOAT OR CLEAR ON THE SHOP FLOOR

1. Mix your preferred 2K coating and activator. Place the Custom Fill™ cap in the Fill Cylinder and fill with your pre-mixed coating.

2. Choose the correct Custom Fill Aerosol Blank to suit your coating.

3. Fill your aerosol for quick and easy shop floor refinishing.
